

Strategies for supporting pupils with SEND in MFL lessons.

Area of Need...	How we support our pupils to succeed...
<p>Communication and Interaction</p>	<ul style="list-style-type: none"> • Good communication including clear speech, eye contact, allowing time to respond and using non-verbal gestures – for example thumbs up. • When you are asking questions, use pupils' names to warn them – especially pupils with visual impairments – that they are about to be involved. • Keep instructions simple. • Check the child understands the task before starting. • Increase pupil independence and confidence by using a task management board. • Pre teach new vocabulary using visual cues. • Scaffold learning so that it is accessible to the child. • Share any changes to the organisation of the lesson or classroom with the child. • Use visuals to prepare the child for what is coming. • Allow time for the child to process new information and instructions with the support of visual cues. • Think carefully about any group activities and allow children to work independently if they find the social expectations of group work tricky or difficult. • Use a variety of questioning techniques with a particular focus on open ended questions, to elicit understanding or recollection of prior learning. • Use pictures and symbols to illustrate abstract, or new concepts to enhance curriculum access for pupils with learning difficulties. • Plan to teach new vocabulary explicitly in context. Create a word bank with widgets.
<p>Cognition and Learning</p>	<ul style="list-style-type: none"> • Use numbered points or bullet points rather than large paragraphs of writing/information. • Allow children to use a ruler or their finger to follow writing/text when reading. • Highlight important information prior to the lesson. • Use pictures, diagrams, clear sub-titles and 'colour coded text' to break up large sections of information. • Carefully scaffold learning to suit the child's individual learning needs. • Give instructions clearly with both physical and verbal cues with visuals to support so that the child fully understands the expectations of the lesson. • Give children time to process questions and formulate answers. • Provide word banks with key vocabulary and images linked to the focus of the lesson. • Repeat information in a variety of ways, using a range of vocabulary. • Provide a writing frame to support writing during independent

St Stephen Churchtown Academy

	<p>activities.</p> <ul style="list-style-type: none"> • Use of IT to support recording.
<p>Social, emotional, mental health</p>	<ul style="list-style-type: none"> • Ensure there are adults available who have a positive, supportive, trusting relationship with the child to support during the lesson. • Ensure all adults supporting the child within the classroom have a good understanding of how best to support the child. • Consistently implement any rules/expectations • Consider carefully seating arrangements to minimise distractions within the session. • Give instructions and key information clearly so the child understands what is being asked of them and how they will achieve the learning goal. • Give the necessary preparation prior to the lesson so that they know what to expect within the lesson. • Share new vocabulary with the child before the lesson. • Share any changes that will be made to the seating plan or organisation of the lesson beforehand. • Use PACE (Playfulness, Acceptance, Curiosity, Empathy) approaches to support the child within the lesson. • Carefully check through the content of the lesson to ensure you are considering the child's context and background before the lesson takes place. If necessary, adapt lessons with this information in mind to avoid triggers and to ensure the child feels safe and secure. • Provide children with a safe and familiar space if they need it throughout the lesson. • Predictable routines allow children to know what to expect and reduces the need for verbal information.
<p>Sensory and physical</p>	<ul style="list-style-type: none"> • Speak clearly and slowly so that children can understand what is being said, what information is being shared and any instructions that are being given. • For those with visual impairment provide a thicker/darker pencil to support the child with reading their own writing • Give enlarged images, pictures and diagrams but be aware of distortion. • Ensure resources are in the correct font size rather than enlarged to ensure sharpness and contrast is as clear as possible. • Check personal equipment such as hearing aids prior to starting a lesson. • Ensure background noise is minimised and the classroom is a quiet, calm environment. • Ask other children to repeat their questions clearly so that the child is aware of any key information being shared. • Face the child when talking and ensure children sit closely to the front having clear vision of all aspects of the lesson. • Provide activities that require movement for pupils who learn best through doing and for pupils who find it difficult to sit still for long periods: role-play, card sorting and using the interactive whiteboard with pupil involvement.
